The one you want is just around the corner
They'll call you just to say they're okay
They'll miss your touch tonight

I'm dying
For attention from anyone
Cause I'm feeling so alone right now
Bring back the rhythm and the energy of being in love

And don't let it go
Just say that you will not let go

The one you want is just around the corner
They'll call you just to say they're okay
They'll miss your touch tonight

So please don't forget
I will not forget

But you've never looked at a woman and been totally
vulnerable?
Known someone who could level you with her eyes
Feeling like god put an angel on earth just for you.

Don't tell, don't tell me we're okay
We've got to find another way, another way

The one you want is just around the corner
They'll call you just to say they're okay
They'll miss your touch tonight

So please don't forget
I will not forget

So please don't forget
I will not forget

The one you want is just around the corner
They'll call you just to say they're okay
They'll miss your touch tonight

The one you want is just around the corner

They'll call you just to say they're okay

The one you want is just around the corner

They'll call you just to say they're okay

They'll miss your touch tonight

So please don't forget

I will not forget
