She never wants to hide from fire, no...  
Got too much desire  
She's squeezing out the best in me, but oh...  
I don't want to let her go  
She makes me feel a little special, yeah...  
Never keeps it to herself  
Really does the things I like oh oh...  
I don't wanna let her go  
The more you give to me girl day to day  
It's very hard to stay away and when I'm sad and lonely  
Far from home  
Who's gonna rock my nights away!  
The lightening only struck me once, but oh...  
You can strike me anytime  
'cos when I get you all alone, lookout I won't ever let  
you go  
The more I get to know you your out of reach  
You've got me so, I just can't sleep  
'cos when I'm sad and lonely from day to day  
Who's gonna rock my nights away  
'cos I need you babe!!  
She never wants to hide from fire no got too much  
desire  
She's squeezing out the best in me, oh...  
I don't wanna let her go  
The more you give to me girl day by day  
It's very hard to stay away  
'cos when I'm sad and lonely far from home  
Who's gonna rock my nights away
