"Still Love That Little Devil"

Visit "[Still Love That Little Devil](#)" on MotoLyrics.com

Any trip I make no matter what it takes
To work or holiday
I want her here with me
I know she likes to be
Together with me every day
Anywhere I go she's there at the show
Enjoy's hersel until the end
But all the time she drinks
And never stops to think
It's gonna start all over again
I must be outta my head, how can she love me
If she's leaving my bed
Can't seem to figure it out
I've given all I can
Can't work her out
I love you, I hate you so much
You spoil me, I can't get enough
I need you, don't wanna see you again
That little devil is she playing a game
Everything I make
She always seems to take
But give's me something back in retrn
I know I still love her
Does she really care
Am I another victim to burn
I must be outta my head, how can she love me
If she's leaving my bed
Can't seem to figure it out
I've given all I can
Can't work her out
I love you, I hate you so much
You spoil me, I can't get enough
I need you, don't wanna see you again
That little devil is she playing a game
