We wrote a parody of a well known track and dicked
around filming in my parents flat
Then put it on a well know video site and we got a
million views in a night,
Wasn't it a billion, I thought it was a trillion,
What the hell lets call it a squillion,
If you haven't heard of us we're The Midnight Beast we
like to say f**k
Toured the U.k and sold out some shows even though
we didn't tjing anybody would go,
Then, channel 4 asked if we'd come in for a chat,
And knocked us all out with a baseball bat, we woke up
surrounded by staff telling us we're funny and "you
make us laugh
They pleaded and begged to ake a beast show telling
us they'd gibe us everything but we said... Sure
Big boys yeh we're big boys much bigger then small
boys coz we're big boys living in a big boy world a big
boy world a bug boy world we just mived out
To our very own flat on channel 4 on our very own show
on channel 4 they explained we weren't good enough
for channel 4 so we'd be in the subsidiary of channel 4,
E4whooh that's are new home where made in Chelsea
sucks hey leave it alone we're nit braggin but our
shows the greatest show ever made so thanks E4 for
this lemonade
Big boys yeh we're big boys we're much bigger then
small boys coz we're big boys livin in a big boy world a
big boy a big boy world we just moved out!
