Simmer down, my head is too hot so. Simmer down,
he's gonna get dropped so. Simmer down, man, here's
what I say. Simmer down, now I've got to got to simmer
down. A long time ago we used to be friends. Picked
my bones in my pockets that's where it ends so.
Simmer down, control my temper. Simmer down, the
battle will be hotter. Simmer down, ok here's what I say.
Simmer down, oh, I'm leavin' in a day. Simmer down,
here's what I say. Simmer down, oh, I'm leavin' in a
day. Simmer down, okay here's what I'm sayin'. Simmer
down, it's got to be this way. Where's the love? Where
is the loyalty? We did our part now where is the love?
Simmer down, control my temper. Simmer down, the
battle will be hotter. Simmer down, it's hard cause it
hurts so. Simmer down, kick me off. Simmer down, but
the pain still exists. Simmer down, and hey I'm sure
he'll be missed. Simmer down, it'll make us stronger.
Simmer down, and we'll live alot longer so. Simmer
down, what goes around. Simmer down, will come
around. Simmer down, I know I've got to simmer down.
Simmer down, I'm tryin' to simmer down. Simmer
down, I've got to got to Simmer Down ohh. Simmer
Down, it's hard cause it hurts. Simmer Down
