Turn off the lights
Turn off the lights
So that I can see you walking away
Turn off the lights
Turn off the lights
So I can feel you hesitating

The last time that I saw you
Was four a.m.
And I've been thinking of what to say to you since then

It's because of me
Flat out 'cause of me
Oh I never had an excuse

Oh no
It's gone
And I wanted to feel that way forever
You need to let her go to sleep
To see
It's back right now
And it feels exactly how I remember
I won't be letting go this time
When it's all said and done

Turn off the lights
Turn off the lights
So that I can see you walking away
Turn off the lights
Turn off the lights
So you can feel me waiting

The last time that I saw you
Was four a.m.
And I've been thinking of what to say to you since then

It's because of me
Flat out 'cause of me
Oh I never had an excuse

Oh no
It's gone

And I wanted to feel that way forever
You need to let her go to sleep
To see

It's back right now
And it feels exactly how I remember
I won't be letting go this time
When it's all said and done

Can you feel me too
The way I feel you
Whenever you're not there

There's a part of me
That makes me wanna go
That's makes me wanna go, whoa

But no matter what you tell me
I'll be until I'm ready
Did you know that I was there
For you

Oh no
It's gone
And I wanted to feel that way forever(oh)
You need to let her go to sleep
To see

It's back right now
And it feels exactly how I remember(oh)
I won't be letting go this time
When it's all said and done

Oh
When it's all said and done x5

Turn off the lights
Turn off the lights
