I move faster than you can possibly know  
And did you wanna see it again?  
I move faster than you can possibly know  
And did you wanna see it again?

I moved closer to a light today  
And found out I was stupid  
I walked through a cloud of dust  
And hindsight lent me the perspective  
To realize that I was just as scared as everyone else

I move faster than you can possibly know  
And did you wanna see it again?  
I move faster than you can possibly know  
And did you wanna see it again?

I moved closer to the light today  
And found out I was stupid  
I walked through a cloud of dust  
And hindsight lent me the perspective  
To realize that I was just as scared as everyone else

I moved closer to the light today  
And found out I was stupid  
I walked through a cloud of dust  
And hindsight lent me the perspective  
To realize that I was just as scared as everyone else...
