Nice and fine
I've always tried to care
But I've failed
I am lost in pain

I've never been so bad
I've tried to change for you
Don't you know we're in a play
Where everthing we do is not real?

I've gone too far
I've lost control
It was not so real
Have you ever been not-you?
It's was not so real
Have you ever changed yourself?
I didn't mean to hurt you
Why can't you forgive me now?

Time before I've tried to involve you
You refused, white lies don't go

Our best times are so far away
They'll remain for every night and day
Around I know there isn't no one like you, ah ah
But I'm changed and never more I'll fail
