Come on now, can you keep up with me  
You'll need more than a look or a catchy melody  
We take this to the night  
I'll keep running and running till you're out of my sight

So keep your faith in me, I'll make sure  
This is everything you want it to be and more  
I'm making plans you see  
If what you feel is a sickness, I'm the remedy

[Chorus]  
Make your mark in an industry  
Kick kick kick start believing  
Cos you can't stall like this forever  
So, come on!

Come now, can't you pick up the speed  
You've seen how much we do so you've got everything  
you need  
I want this just as much as you  
Believe in me cos you've seen what I can do

Another picture, so unoriginal  
Whatever happened to passion on your radio  
I'm making plans you see  
If what you feel is a sickness, I'm the remedy

[Chorus]  
Make your mark in an industry  
Kick kick kick start believing  
Cos you can't stall like this forever  
So, come on!

I'm your remedy

Through this window, there's an ocean  
And we jump into the deep end  
And we swim as fast as we can, can't you see  
A song inside a raging sea  
And when faith in cold wind floats through the night I'll  
hear these notes

Forget, (make your mark) what you're feeling (kick kick  
kick)  
Oh, I believe it

Come on now, can you keep up with me  
You'll need more than a look or a catchy melody  
So please don't stall like this

I'm your remedy  
Come on!
