"I Remember When"

Visit "[I Remember When](#)" on MotoLyrics.com

I remember when.
I remember when I, screamed and screamed,
I remember when I was bottle fed,
I remember when I just laid there,
But now your little girl is all grown up.
I remember when I met my first teacher,
I remember when I first entered this world,
I remember when I first came to my nanas
But now your little girl is all grown up.
I remember when I got my first pet he was called cliff,
I remember when I said my first word,
I remember when I first saw my big brother,
I remember when I first sat on my granddads knee,
I remember when, my aunty Kim got hitched,
I remember when I first slept in a bed,
But now your little girl is all grown up.
