Close your eyes
Give me your hands darling
Do you feel my heart beating
Do you understand
Do you feel the same
Am I only dreaming

I believe, we're mean to be, darling
Watch you when you're sleeping
You belong to me
Do you feel the same
Am I only dreaming

Gold in the fire
Gold in the fire
Gold in the fire is an eternal flame
Gold in the fire
Gold in the fire
Gold in the fire is an eternal flame

Say my name, the sunshine through the rain
My hole life
So lonely then you come and ease the pain
Say my name, the sunshine through the rain
My hole life
So lonely
An eternal flame
An eternal flame
