Greetings

This is Uncle Sam

I want to take you

To a far off land

I need you

Oh, I need you

Yes, I need you

To lend a helping hand

Said goodbye

To all my buddies

Say hello

To your new friends

'Cause you're in the army now

And your new life has just begun

I need you

Oh, I need you

Yes, I need you

To lend a helping hand

I can just see me now

With a rifle in my hand

I'm gonna have to say

Goodbye to my girl

And I hope she doesn't

Find another man

And baby, baby

While I'm away

Please, please write everyday

Oh no, no

Please don't take me, Uncle Sam

You're in the army now

Goodbye, baby

So long, friends

Goodbye, baby

I hope to see you again

I need you
(Come on, boy)
Oh, I need you
(We're gonna make a man out of you)
Yes, I need you
To lend a helping hand
(This one training
You're not gonna miss)

Come on, boy
Whatta mean you've never heard of KP
I don't care if it's 4 in the morning
There is a right way
A wrong way
And there's my way
You'll do it my way

Come on, boy
On the double
Get in step, boy
Come on, now
March, march

Your mama's a long ways off, boy
So stop your crying
March
Get in step, boy
Left, right
Left, right
I said get in step, boy
Left
