Cracking, I can see the play before it happens
I know that I should run, bad choices are so much fun

Cold like a killer queen, you could be my disease
You could be my mistake
And be my last breakdown
You could be my mistake
And be my last breakdown
She's hot hot, hot hot, hot as hell

And the pictures flash, flash the camera phones catch
the disgrace
It happens so fast a digital laugh
You can't hide your real face

Cold like a killer queen, you could be my disease
You could be my mistake
And be my last breakdown
You could be my mistake
And be my last breakdown
She's hot hot, hot hot, hot as hell

She's got the face to race and take first place
I've got the taste of her on my neckbrace
She's got the face to race and take first place
I've got the taste of her on my neckbrace

You could be my mistake
And be my last breakdown
You could be my mistake
And be my last breakdown
She's hot hot, hot hot, hot as hell
