Don't want you down
Don't want to let you down
How I try
But it still makes you cry
That I'm a man
Who always wants more
And your sweet heart has grown tired

But if we try
We just might find
That we can get by in time

I say it's love
You say it's a shame, a shame, a shame
How these mistakes were made again and again

But if you need some kind of proof
The only thing I can say to you...
Is all in good time

It's all I can say...
I can say to you
All I can say
