"I Say I Love You"

This love's beginning to feel like this love is the real deal
this love's the love you give this love's the love you steal
this love is wakin' up a heart dried-up and turned black
this love's a bridge on fire
once you get there you can't turn back
When I say that I love you I mean that I love you
This love is something most folk just don't understand
intangible - that means that you can't hold that in your hand
this love's a shooting star so high up in the sky
this love's our secret wish - cross hearts and hope to die
When I say that I love you I mean that I love you
When I say that I love you yeah you know I love you
I say I love you I say that I love you
