One year ago underneath the summer sun  
she was just a restless child, she was my only one  
said we'd be together our whole lives through  
oh yeah, just me and you

Oh sweet susanna  
can you remember?  
Oh sweet susanna  
can you remember?

Two young ones with the sweetest summer love  
holding hands beneath the brilliant stars above  
We knew that something true most folks will never  
know  
oh yeah, so where'd you go?

Oh sweet susanna  
can you remember?  
Oh sweet susanna  
can you remember?

Sweet susanna do you remember my name  
Sweet susanna beneath the sweet summer rain  
Sweet susanna come on and do it again  
Sweet susanna, oh sweet susanna, oh yeah  
Sweet susanna come on and do it again [x3]

Haven't seen susanna since summer time last year  
Hear her name and all these memories reappear  
Think she wonders about the love we once knew?  
Well I do

Oh sweet susanna  
can you remember?  
Oh sweet susanna  
can you remember?  
Oh sweet susanna  
can you remember?  
Oh sweet susanna  
can you remember?
