Today I heard the whistle of a train around the bend  
Today I got that feelin' my trouble's meant to end  
Today I met that freight train, guitar by my side  
I got on that freight train, and you know I'm gonna ride  
I'm tryin' to find I'm ridin' the line  
gonna make my way, Alright! OK! Let's do it!

Today I heard a songbird sing a sweet melody  
Today from all my worries I believed I'd soon be free  
Today I climbed a mountain, guitar in my hand  
I climbed up that mountain, came back down with this  
band

I'm not talkin' about tommorow, Tommorow may never  
come  
Not talkin' about yesterday, baby Yesterday's gone  
Sing a song about right now, song about today  
We say Alright! We say OK!  
Not tommorow. Today!  
Singin' a song about today!  
Alright! OK!
