"We Go Together"

We go together, like castles and kings
Birds of the feather, two robins in spring
Let's go steady, you are my first love
Oh, oh-oh, oh-oh-oh

We like the same things, that make living sweet
Loving like movies, in the balcony seat
Let's go steady, you are my first love

So, please, listen to me
Someday we will be
Side by side, hand in hand
You'll be wearing my wedding band

We go together, like two straws in a coke
Why not come over, and you'll meet my folks
Let's go steady, you are my first love

So, please, listen to me
Someday we will be
Side by side, hand in hand
You'll be wearing my wedding band

We go together, like two straws in a coke
Why not come over, and you'll meet my folks
Let's go steady, you are my first love

You are my first love
You are my first love
