Damn it anna don't look at me that way
You know very well what you did that day
Yes you know very well
You say you got a soul to sell
But if you wanna meet the devil
You gotta go to hell

Damn it anna can't you look me in the eyes
You better pay attention when I'm giving you advice
'Cause you'll pay out then know
That nothing comes for free
You already paid the price of losing me

Well I am big and flesh
I dread the words you read
A book without a cover
So don't judge me 'till it's over

Damn it anna don't you give me away
I'm sleeping in the shadows and I'm here to stay
They say if you love something
You better give it away
But I've seen the same things happen
In a canned rage

Damn it anna (damn it anna)
Damn it anna (damn it anna)
Damn it anna (damn it anna)
Damn it anna
