It's a feeling like fireworks
That explode inside my chest
Your kiss creates the spark
That ignites my very best
There's a rumor
And I know you know it's true
That you've got my heart locked in your room
And this world's not half as bright
When there's a me without a you
We've got it better than all the rest in an unseen new
direction
Trying hard to be the best
So can i please have your attention

I float away every time that i touch your face
It feels so great
And we can't stop now and slow this down
As we give in to love and fate

Holding hands with fingers locked
Our hearts they race like ticking clocks
Wind them up and start again
The time is here now babe so don't pretend
If there s a moment more perfect than tonight
Let me hear all the dreams you have inside
I wanna make them all come true
And make you feel alive

Baby baby let me in
Lets throw precaution to the wind
The lights they slowly start to dim
Emotions flood my senses

I float away every time that i touch your face
It feels so great
And we can't stop now and slow this down
As we give in to love and fate

Woo!

Give me one chance to take your breath away

Doo doo doo, doo doo doo
Doo doo doo, doo doo doo
La la la la la la la la la la la la la
Doo doo doo, doo doo doo
Doo doo doo, doo doo doo
La la la la la la la la la la la la la
