Jennasea, you're all I need to help me see I'm
incomplete
Jennasea, you're all I need to help me see I'm
incomplete
So would you please swim through the seas to be with
me?
I'll make you see

That if you just come home, I'll show you how it is
Let me wash away your sins and shortcomings
And if you just come home, I'll show you how it is

Jennasea, I'm on my knees
Are you listening to anything?
You're far from me, but I still see you in my dreams
It's so serene

So won't you just come home and show me how it is?
You can wash away my sins and shortcomings
And if you just come home I'll show you how it is
