

The Morningside "The Trees"

Visit "[The Trees](#)" on MotoLyrics.com

I've been otherwise
You see them dying now
They scratch the sky with there finger-twigs
And only rain is quietly to make it's steps
Leaves like souls are falling down
But there death have lost it's beauty it's eternal
It would be new life, but now they have to wait
The day December coming
You can stay as them with them
And the rain will never stop
Sky won't see the sun
And there won't be December to come
It's been otherwise
But cold wind is singing it's blue song
And sky is grey...
But only they've lost the beauty
But stop, you can be left among
And you won't find the way out from the forest
And only autumn rainy grab down
With the road becoming endless
You can stay as them with them
And the rain will never stop
Sky won't see the sun
And there won't be December to come
