I wanna thank you  
For every time you tried  
To get the best of me inside  
How many times I compromised

I don't do this for the glory  
Or for what people might say  
I'm gonna do this my own way  
Starting today

There's nothing that you can tell me  
I'll show you I was born ready

And I say, ay yo  
Rise up, lemme see your head high  
And if you're with it, put your hands up in the sky  
La la, di di da, di di di, da di da  
Ay yo, ay yo, ay yo, ay yo

And I'm gon' rock it to the fullest in this life  
So I'ma give it all I got before I die  
La la, di di da, di di di, da di da  
Ay yo, ay yo, ay yo

Every woman has a purpose  
Nothing happens by chance  
This is your life here in your hands  
You gotta fight to take the stand

And I know you might not see it  
But the high can fall so fast  
When you're in first don't forget the last  
You gotta give it all you have

Oh, life can be unforgiving  
I'm fighting to keep on living

And I say, ay yo  
Rise up, lemme see your head high  
And if you're with it, put your hands up in the sky  
La la, di di da, di di di, da di da  
Ay yo, ay yo, ay yo, ay yo

And I'm gon' rock it to the fullest in this life  
So I'ma give it all I got before I die  
La la, di di da, di di di, da di da  
Ay yo, ay yo, ay yo

If you have a light  
Then hold it up and let it shine  
Would you make the choice to meet your destiny  
Or let this lifetime pass you by, yeah

Only you can make it  
What's yours is yours, no one can take it  
If you have a dream  
Something you believe, it's time to set it free

And I say ay yo  
Rise up, lemme see your head high  
And if you're with it, put your hands up in the sky  
La la, di di da, di di di, da di da  
Ay yo, ay yo, ay yo, ay yo

And I'm gon' rock it to the fullest in this life  
So I'ma give it all I got before I die  
La la, di di da, di di di, da di da  
Ay yo, ay yo, ay yo, ay yo

Rise up, lemme see your head high  
And if you're with it, put your hands up in the sky  
La la, di di da, di di di, da di da  
Ay yo, ay yo, ay yo, ay yo

And I'm gon' rock it to the fullest in this life  
So I'ma give it all I got before I die  
La la, di di da, di di di, da di da
