Said it's just like magic, magic  
And I need your magic, magic  
Said it's just like magic, magic  
And I need your magic, magic

If my heart could cheat  
It would think it's a game  
Cause I swear I felt your touch  
And my mind felt the same  
So now what do I do  
Cause I'm alone in this room  
I have your name on repeat  
It's a shame  
Cause I feel like you're close  
My body's thinking the same  
I wish that I could hold you  
But I'm alone in this room

Is it some kinda spell you do  
Cause I'm swearing up and down he got me  
It's supernatural  
I feel something new

Even though you're gone  
You still turn me on  
Think I better body up  
Ooh it's that magic touch  
Baby you're not here  
But I can feel you there  
Think I better body up  
Ooh it's that magic touch

Said it's just like magic, magic  
Said it feels like magic, magic  
Said it's just like magic, magic

And I need your magic, magic

Baby it's easy to leave out of reality

Always like a fantasy

When you're in here with me

So I do what I do

When I'm alone in this room

It's really not a game

You're my pleasure and pain

But it's a special kinda hurt

And I'm going insane

And ooh I like to play you

When I'm alone in this room

Is it some kinda spell you do

Cause I'm swearing up and down he got me

It's supernatural

I feel something new

Even though you're gone

You still turn me on

Think I better body up

Oooh it's that magic touch

Baby you're not here

But I can feel you there

Think I better body up

Oooh it's that magic touch

And what I'm loving the most

Is when you come home

You're making the whole experience so memorable

(And it's just like magic, magic

Said it's just like magic, magic)

And I never want it to end

That's why I just imagine, 'magine

So this time will never end (Hey)

Said it feels like magic, magic

And I need your magic, magic

Said it's just like magic, magic

Said it's just like magic, magic

Said it's just like magic, magic

Said it's just like magic, magic

Even though you're gone

You still turn me on  
Think I better body up  
Ooh it's that magic touch  
Baby you're not here  
But I can feel you there  
Think I better body up  
Ooh it's that magic touch

Even though you're gone  
You still turn me on  
Think I better body up  
Ooh it's that magic touch  
Baby you're not here  
But I can feel you there  
Think I better body up  
Ooh it's that magic touch

Said it's just like magic, magic  
And I need your magic
