Kenny smokes cloves, and everybody knows
A great big cloud of smoke, oh my god, there it goes
Kenny smokes cloves
Kenny smokes cloves
Things that smell so bad, it makes me really sad
Get another stick of gum, oh my god, here it comes
Kenny smokes cloves
Kenny smokes cloves
And everybody knows
Think it through, think it through, think it through, think
it through
Bad for you, bad for you, bad for you
Kenny smells all the time, Kenny was a good friend of
mine
I know better because, ?I understand that God loves
cloves?
Kenny smokes cloves
Kenny smokes cloves
And everybody knows
Think it through, think it through, think it through, think
it through
Bad for you, bad for you, bad for you, bad for you, bad
for you, bad for you,
Bad for you, bad for you, bad for you, bad for you, bad
for you
Kenny smokes cloves
Kenny smokes cloves
And everybody knows
That now he's a Marlboro man.
