She held me by the hand she said don't criticize what
you don't understand she
Showed me her butcher knife said it taught her a lot
about life. I'm stuck
With the psycho girl I think I'm gonna get hurt psycho
girl touch her lose
Touch with the world psycho girl psycho girl she scared
me half to death said
She'd die of loneliness psycho girl had a psycho dog
and they growled at me
When they took a walk psycho girl, touch her lose touch
with the world psycho
Girl psycho girl it's a psycho world oh woe, oh woe woe
woe as if that weren't
Enough her life was really fucked up psycho girl just
opened her mouth a whole
Lot of interesting stuff came out.
