Yeah yeah she's the one
Yeah yeah she's the one
When I see her on the street
You know she makes my life complete
And you know I told you so
She's the one
She's the one
Yeah yeah she's my girl
Yeah yeah she's my girl
When I see her on the street
You know she makes my life complete
And you know I told you so
She's the one
She's the one
She's the one
Know I'll never find a girl like you
But in my heart I'll always love you
But in my heart I'll always be true
Yeah yeah she's my girl
The best girl in the whole wide world
