I'll be your codependent you're my cute little enabler
together we'll get set
To kill and cry about it later and I say lather rince
repeat this is my
Philosophy change my mind my brain is smoking can't
live without my
Remote control remote control What Do You Want? it's
too complicated
What do you mean? it's too hard to state it what do you
do? it's not what
But whether who do you love? I'm in love with leather so
call me kid
Compulsive cause I'm crawling on the concrete and
meet me at the
Laundromat that's where I do my laundry and I will be
so glad you came
Cause danger is my middle name there's always
something going on until it
Sort of grinds to a halt. what do you want? I don't know
what is it what do
You need? I just need a minute what will it take? it will
take forever who do
You love? I'm in love with lethargy now sit right back
and you'll hear a tale
Of all my twisted motives of coffee jolt and classic coke
and delicious blue
Cream sodas blue cream soda brings a smile and
that's what makes it all
Worthwhile there's something more important
somewhere but blue cream
Soda sure is up there what do you want? that's for me
to know and you to
Find out and that's where I'm going what will it take? it
will take forever
Who do you love? I'm in love with leather what do you
want? what do you
Mean? what will you do? it's not what but whether who
do you love? I'm in
Love with lethargy.
