You alone  
Can make me act this way  
Explaining things I didn't do  
And things I shouldn't say  
I'm far from home  
But I've been up to my own tricks  
Creating these catastrophes  
That you alone can fix  
Tell me where to take it  
Everything I'm thinking  
Like oh, oh oh,  
I love you so  
And I'll put my life on hold  
And I'm ready to go  
And how my love is true and everything I'm ever doin  
When I get you alone  
Now me alone  
Is a most pathetic site  
Making up excuses  
Just to not come down at night  
And you alone  
Would clearly be a waste  
Of all those questions of your life  
That could never be replaced  
Setting up your high horse  
Get on my horse  
I dream of you  
And I'd spend a small fortune  
Just to make it come true  
I may not have enough to do  
A lot of screwy stuff  
But I will never leave you alone  
Hey hey hey  
Hey hey hey  
For you alone...  
You...for you  
You alone are the one I leave my prayers  
Or at least that I'm without you in my heart  
This whole theory falls apart  
You alone  
Could clearly be a waste  
Of nights dead after endless night

And meaningless charade  
All I ask  
Is that you were alone to be  
And nights dead with me alone  
And you alone with me  
You alone with me  
You alone with me  
You alone with me
