"Sail Away"

Cold moon,
Lonely as can be,
Sailing where the starlight fades to blue.
Don't you,
Sometimes feel like me,
Wish the friends you dream about were true?
And they would sail away with you.
Sail away with you.
Some day,
You may tumble down,
Sad because your light is nearly through.
Moon stay,
I will search around,
Climb until your light is bright as new.
And then I'll sail away with you.
Sail away with you.
Sail away with you.
Sail away with you.
Sail away with you.
Sail away with you.
Sail away with you.
Sail away with you.
Sail away with you.
Sail away with you.
Sail away with you.
