A thousand winters melting

(Verse 1)

The streets are filled with angels  
Walking by my side  
And every time I listen close  
I hear their footsteps quickly run and hide.

It's all a bit confusing...impossible at best!  
But when I walk alone at night  
I feel their holy presence lift my head.

(Chorus)

Love, love, a thousand winters melting.  
Love, yes love, as you wrap your arms around me.

(Verse 2)

They wait for us to listen to the voices we can't see.  
They wait 'til all the lights go down and finally we hear  
that melody.

(Chorus)

Love, love, a thousand winters melting.  
Love, yes love, as you wrap your arms around me  
There's a thousand ways you love me  
and a thousand times you've shown me  
and if ever I've found love,  
I've found you.

Chorus:

Love, love, a thousand winters melting.  
Love, yes love, as you wrap your arms around me  
There's a thousand ways you love me  
And a thousand times you've shown me  
Love, yes love, as you wrap your arms around me
