Like shadows we fall into the great beyond  
Lost in the veil of time, souls to become  
Darkness in light  
Floating in a whirl of tears, dark wounds of evil betrayal  
Dolo malo

[Chorus:]  
Sinking rapidly into eternity  
Callous hostility  
Driven to insanity

We see the stars beyond, rising amongst the heavens  
Utterings from thundrous voices sounding like a  
symphony  
Entwined with roaring screams from the realms of  
hades  
De profundis

[Chorus:]

To be like the angels,  
We are crying higher in despair, falling down from  
heavens,  
Hades raging voices do remind of the darkest evil fire

Flames from the eternal depths mounting high above  
us  
Reaching up infinitely high, boundaries devoured  
Smoke of sulphur in the sky darkening the gospel  
Dies irae

Under the dark skies in the flames  
On the darkest day lit up by fire  
Gathering of warriors, not the mortal kind  
Prepared to fight in the great battle

Hail and fire mixed with blood overwhelm  
The shattered earth  
Agonizing screams of man longing for the  
Everlasting death  
There is no more time for dying, mortal souls  
Condemned forever

In acternum

[Chorus:]

Deepest in the great beyond, hidden by the dust of  
ashes  
Hunting in the gloomiest dawn, to be kissed  
By tongues of fire

Feel the brutal kiss of death as they all collide in anger  
Hosts of spirits fight against hierarchies of fallen  
angels  
Come with me and you will see  
We are all doomed, without sympathy  
Listen to the endless screams coming from unfearful  
minds  
In this emptiness they fly, judged to perdition forever  
Our lost fate, we are truly forlorn  
As we fall into eternity
