I'm sorry girl if it makes you feel any better  
I'd go to the end of the world  
To be your man again  
I won't give you trouble 'cause  
I really need you you you you  
If I had one wish  
It'd be me and you  
Together together together

you can make me cry  
but you wont make me give up

try try try  
but please don't do 'cause i love you  
and i need you oh baby  
monday tuesday wednesday thursday friday saturday  
sunday  
i think bout u every hour  
every minute every sencond  
i think thats love  
i think thats love
