If there was a place to hide, I'd go  
If there was a place to hide, I'd go, but no  
If there was a place to hide, I'd go  
If there was a place to hide, I'd go, but no  
You're  
There  
Where ever i may land  
you're there  
Where ever i may fall  
225,000 miles away  
I can feel you as close as an inch  
If there was a place to hide, I'd go  
If there was a place to hide, I'd go, but no  
If there was a place to hide, I'd go  
If there was a place to hide, I'd go, but no  
I  
Can't  
Get you out of my mind  
Can't  
Make  
You stop coming to mind  
Why  
Are you still in my head  
Why, why, why, why, why, why  
If there was a place to hide, I'd go  
If there was a place to hide, I'd go, but no  
If there was a place to hide, I'd go home  
If there was a place to hide, I'd go, but no  
If there was a place to hide, I'd go home  
If there was a place to hide, I'd go, but no  
If there was a place to hide, I'd go home  
If there was a place to hide, I'd go, but no  
But no, but no
