If there was a place to hide I'd go
If there was a place to hide I'd go but no
If there was a place to hide I'd go
If there was a place to hide I'd go but no
Your there where ever I may land
Your there where ever
I may fall 225000 miles away
I can feel you as close as an inch
If there was a place to hide I'd go
If there was a place to hide I'd go but no
If there was a place to hide I'd go
If there was a place to hide I'd go but no
I Can't get you out of my mind
Can't make you stop comin'a by
Why are you still in my head?
Why?
Why?

Why?
Why?
Why?
Why?
If there was a place to hide I'd go
If there was a place to hide I'd go but no
If there was a place to hide I'd gooooo (high)
If there was a place to hide I'd go but no
If there was a place to hide I'd gooooo (high)
If there was a place to hide I'd go but no
If there was a place to hide I'd gooooo (high)
If there was a place to hide I'd go but no
But no
But no
