If you can make it through the rain
You can make it through the sun
So hold on
We'll see what happens to you and me
We'll see what happens to you and me
There will be some tough times
And some rain
And some bleeding
There will be some pain
I will admit
There will be some agony
If you can make it through the rain
You can make it through the sun
So hold on
We'll see what happens to you and me
We'll see what happens to you and me
There will be some hollering
And some blood
And some death
Some nights of sorrow
Its true
But what about the sun
If you can make it through the rain
Then you can make it through the sun
So hold on
We'll see what happens to you and me
We'll see what happens to you and me
Bum bum bum bum (section with piano)
If you can make it through the rain
You can make it through the sun
So hold on
We'll see what happens to you and me
So hold on, hey hold on
(We'll see what) happens to you and me
(So) hold on
We'll see what happens to you and me
So hold on
We'll see what happens to you and me
