This woman named Susan tried
to get married Saturday night
But a meteor hit her
and gave her amazing height
Nowhere to run,
Nowhere to hide,
Everybody watch out
here comes the bride!
She's gonna rock this town
gonna rip this place apart
Then she met Dr.Cockroach
and the missing link
B.O.B. is a glob that eats
all but the kitchen sink
Gallaxhar he ain't no fun,
it's Monsters VS Aliens

They're gonna rock this town,
gonna rip this place apart
They're gonna rock this town,
rock it inside out.
They're gonna rock this town,
make you scream and shout.
They're gonna rock, rock,
rock that probe
they're gonna keep on rockin'
'til they save the globe
They're gonna rock this town
gonna rock it in 3-D
