Sail away and chase your dreams  
Don't worry if it's not what it seems  
Be strong and carry on  
When all around you things are going wrong

I'm all alone in this troubled place  
Livin' for the porter as the tears roll down my face  
I look around but there's nobody there  
I'm just a stranger and nobody cares

There's a bar where the Island people meet  
By a lonesome whistle player in the corner there's a  
seat  
The shrill of the whistle eases the pain  
Gives me the strength to chase another day

And if you get sad, remember...  
There's many dreamers in town

Sail away and chase your dreams  
Don't worry if it's not what it seems  
Be strong and carry on  
When all around you things are going wrong
