[German talking throughout]

As they stare into our flesh  
At the end of what comes next  
Peering deep into the light  
X-ray hamburgers tonight

Evolution of a race  
In outer space

Running tests upon our scars  
Bits and pieces of our hearts  
Burnt so hot beneath the light  
X-ray hamburgers tonight

Evolution of a race  
In outer space

You're the change that had to come  
As we stare into the sun  
Pane of glass we can see through  
X-ray hamburger is you  
It's you  
X-ray hamburger to go  
It's you  
X-ray hamburger to go  
It's you  
X-ray hamburger to go  
It's you  
X-ray hamburger to go
