[Chorus:]

What they say, is what you do,
Set in Stone, just for you

Obey their rules don't disobey, follow along or you will
pay

Follow the herd is what they want from you
Open minds need not apply, fight the system you will
die

This is what they want from me and you

Just be sure to conform or before their jury you'll be
scorned

Change your life with no attitude
The things they say cannot be swayed, don't even try
another way

This is what they want from me and you
