(Verse)

Turn up the music let's crack the champagne  
Here's to the one I love leaving the game  
I don't plan to change your mind  
Sometimes in life you'll find  
Even if it hurts you ,nothing is lost

(Verse)

Things didn't turn out as I thought they would  
A fire burning never looked so good  
You won't stop me dreaming now  
I won't stop believing  
'Cause I know that if it cuts me ,nothing is lost

(Chorus)

Funny how things change  
Dancing in the rain  
Just like a shooting star  
I always go too far  
The galaxy's my company so nothing is lost

(Verse)

Oh what a feeling unexperience  
I know that I have got a second chance  
We'll take it slow this time we'll take it easy  
You can call me when you need me baby, nothing is  
lost

(Verse)

Don't talk about me to your future girls  
I'm just a lover in an ordinary world  
But when you want so much more  
You'll kick the door down  
If you feel it's ordinary you know ,nothing is lost

(Chorus)

Funny how things change  
Dancing in the rain  
Just like a shooting star  
I know I took it way too far  
The galaxy's my company now, nothing is lost

(Verse)

Funny how things change  
I'm still walking in the rain  
Search for better days  
Just like a shooting star  
I take it way to far  
Stars are my company  
So nothing is lost

(Outro)

Nothing is lost  
Nothing is lost  
You won't stop me dreaming now  
Nothing is lost  
Won't stop believing now  
Nothing is lost
