I see something in your smile  
You're questioning you're worth my while  
And it's dampening my smile  
While in romantic mood

Something is clearly on your mind  
You're wondering if I'm genuine  
And certain feelings though it's time  
For me to answer you

Gonna make you notice  
I don't think you know that you're my angel  
You're my star (you're my star)  
So just close your eyes  
And let that light shine from your heart  
(light shine from your heart)

Never die I have a fear  
I want to be nowhere but here  
Just wanna make it crystal clear  
So that you understand

Slow it down and let in the lights  
It's a wonderful world  
When I'ma do laugh my life  
Now I walk with my head up high  
I need no other man

I wanna make you notice  
I want you to know that you're my angel  
You're my star (you're my star)  
Just close your eyes  
And let that light shine from your heart  
(light shine from your heart)

I wanna make you notice  
Yes I would like to know that you're my angel  
You're my star (you're my star)  
Just close your eyes  
And let that light shine from your heart  
(light shine from your heart)

So many things are left unsaid  
I don't wanna fake it close your mouth  
I can't take it ,  
And know got the ticket, you're the ticket  
Your love won't last forever  
Close your eyes forever will you be mine

Gonna make you notice  
I want you to know that you're my angel  
You're my star (you're my star)  
So just close your eyes  
And let that light shine from your heart  
(light shine from your heart)

I wanna make you notice  
Yes I wanna let you know that you're my angel  
You're my star (you're my star)  
Just close your eyes  
And realize that you're my only star  
(you're my only star)  
And let that light shine from your heart  
(light shine from your heart)
