I wake up early in the morning to the sounds I hear
outside
It's pure noise, I'm going crazy, I gotta get out and find
What I've always wanted in my whole life
It's up to me and I won't let fate decide

Luck only takes you far enough until it wears out (Oh it'll
wear out)
Luck only takes you so far unless you breakout
It's just a matter of time until it all falls down and
You're back to the place where you found doubt
Luck only takes you so far unless you breakout
Before it breaks you down

And to all the friends that got lost in the biz
May this song give you strength to find a way back
Through the mist of fame, oh what a taste
Of another dream gone to waste

Luck only takes you far enough until it wears out (Oh it'll
wear out)
Luck only takes you so far unless you breakout
It's just a matter of time until it all falls down and
You're back to the place where you found doubt
Luck only takes you so far unless you breakout
Before it breaks you down

Listen closely to the sounds you hear outside
It's time to get up, it's time to get out
And make something of your life.

Luck only takes you far enough until it wears out (Oh it'll
wear out)
Luck only takes you so far unless you breakout
It's just a matter of time until it all falls down and
You're back to the place where you found doubt
Luck only takes you so far unless you breakout
Yeah, you gotta break out!
