Unstoppable force  
Applicable here right now and right away  
Inanimate objects controlling your options  
Animal led this parade

Disruption occurring  
I can't even make out a single thing they say  
But it's not as if the vibrations their forwarding  
Mean a goddamn thing  
Importance it's not of  
Impotence it's full of  
Impromptu shit show  
Pack up your rodeo clown routine  
And go back to Paraguay

I I really dare you make anything of it  
I really dare you make sense out of it  
Dare you make anything of it  
Dare you make sense out of it  
I dare you

The dinosaur of Ronald Reagan  
Strangled the city of San Francisco  
Hands full of wishful thinking  
To counter your lungs full of smoke  
From the icy injection  
Sends you back from boredom glue  
With the appease the masses  
Generic dumbass attitude

I I really dare you make anything of it  
I really dare you make sense out of it  
Dare you make anything of it  
Dare you make sense out of it  
I dare you
