

The Oedipus Complex "In Between Dreams"

You keep me alive
And let me make it through
Another day
I don't know why
Take back the stone
Throw off the shackles

In between dreams
I don't really care

What would you say
If you felt like the world
Had no meaning
Sometimes it's not
Even worth the effort
To stay awake

In between dreams
I don't really care
I'd rather live inside my mind
Never to return outside

Should have stayed inside my own delusions
Swallowed until my mind is erased
I tried to be part of things
But I'd rather go back to sleep
