Let me hear your body talk, your body talk
Let me hear your body talk

*I'm saying all the things that I know you'll like
Making good conversation
I gotta handle you just right, you know what I mean

I took you to an intimate restaurant
Then to a suggestive movie
There's nothing left to talk about
Let's see horizontally

**Let's get physical physical
I wanna get physical physical
Let's get into physical
Let me hear your body talk
Let me hear your body talk

**Repeat

I've been patient I've been good
Trying to keep my hands on the table
It's getting hard to hold them back
You know what I mean

*Repeat

**Repeat
