Everyone i know
is gone
they left
saying see you around
but i don't care
i like it that way
i don't care
i never had much to say
everyone i know says that im wrong
stubborn cold hard headed and withdrawn
see you later
see you around
see you later
see you around
but
everyone i know is gone
i don't care
i like it that way
i don't care
i never had much to say
i don't care
i just wanted to say
it means nothing to me
i gave it away
