Day after day, the same faces I see in this bubble  
And time after time, I go back the same way that I  
came

And sometimes I sing loud in the air  
Before I reach out, I'm back here again  
And I can't forget it, I can't forget that I lost  
And I can't forget it, I can't forget that I lost

???, I can't see in front of my hands  
I don't want to see no more rain, when I'm going to

And each time I laugh, it makes me feel sad  
That's when I know to stop looking back  
And I can't forget it, I can't forget that I lost  
And I can't forget it, I can't forget that I lost

Hour after hour, I've been round this tonight but I can't  
stop  
Thinking of people and places I no longer know

And time after time, I'm back here again  
Only to find that it never ends  
And I can't forget it, I can't forget that I lost  
And I can't forget it, I can't forget that I lost
