I've looked for love in stranger places
But never found someone like you
Someone whose smile
Makes me feel I've been holding back
And now there's nothing I can do

'Cause this is real and this is good
It warms the inside just like it should
Most of all, most of all
It's built to last, it's built to last

All of our friends saw from the start
So why didn't we believe it too?
Oh yeah, now look where we are
You're in my heart now
And there's no escaping it for you

'Cause this is real and this is good
It warms the inside just like it should
Most of all, most of all
It's built to last

Walking on the hills at night
With those fireworks and candlelight
You and I were made to get love right

'Cause this is real and this is good
It warms the inside just like it should
Most of all, most of all
It's built to last

'Cause you are the sun in my universe
Consider the best when we felt the worst
And most of all, most of all, most of all
Most of all, most of all, most of all
It's built to last
