Devils and angels on this old street
Twenty-two years and I'm still asleep at home
It's all that I've known
Most of my friends have all moved away
Gone off to college to find their weight in gold

Every day is a lifetime
Back to the beginning again
And we slave for a lifetime, for a lifetime

There's nothing real on my TV screen
It's all a network reality
And it shows in our broken home
And now most of my friends are all moving back
To a life less certain than yesterday
It's a backwards step we made

Every day is a lifetime
Back to the beginning again
And we slave for a lifetime
We'll walk free in the end

Every day is a lifetime
Back to the beginning again
And we slave for a lifetime, for a lifetime

Under the sun, we're all working hard
Not sure if it will pay
Can you believe that the last few years
Left us poor and here today?

Devils and angels on this old street
Now they got the same secrets as you and me
So let's open our doors
Let's open our doors for the world to see

Every day is a lifetime
Back to the beginning again
But we slave for a lifetime
We'll walk free in the end

Every day is a lifetime

Back to the beginning again
And we slave for a lifetime
(For a lifetime)

Every day is a lifetime
It's a lifetime under the sun
Every day is a lifetime
It's a lifetime

Every day is a lifetime
(Devils and angels on this old street)
It's a lifetime under the sun
Every day is a lifetime
(Devils and angels on this old street)
It's a lifetime

Every day is a lifetime
(Devils and angels on this old street)
It's a lifetime under the sun
(Devils and angels of you and me)

Every day is a lifetime
(Devils and angels on this old street)
It's a lifetime
(Devils and angels of you and me)
